1. All pending claims 1-4 and 7-10 are allowed. Claims 1, 2, 7, and 8 are independent.

2. The following is an examiner's statement of reasons for allowance:

Claim 1 and corresponding method claim 7 are allowable because in the closest prior art of record Ui et al. (U.S. Patent No. 6,340,984), the processing of image data which reflect an inclination angle and an amount of shift of a recording sheet (skew) does not include that fractional raster-line offsets indicate interpolation weight for neighboring pixels as claimed in claims 1 and 7.

Claim 2 and corresponding method claim 8 and their dependent claims 3, 4, 9, and 10 are allowable because in the closest prior art Ui et al., the memory (MR), which holds the digital image data, does not hold less than half the data associated with the digital image, at any time, the digital image to which the digital skew compensation is applied, as claimed. Claims 3 and 4 depend upon claim 2. Claims 9 and 10 depend upon claim 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
